Re: UMR Claim Savings Program

Dear Kathy,

UMR has rolled out a new Advance Claim Review program aimed at providing additional claim review for coding accuracy. This is a post-service; pre-payment claims verification program designed to provide an additional layer of scrutiny to large claims with the ultimate goal of maximizing claim savings.

This program is free to implement and only incurs a cost if actual savings are realized. UMR charges a percent of savings of 30%.

While this program could potentially lead to a delay in payment to a provider due to the extra layer of scrutiny qualifying claims receive, Hays ultimately recommends Routt County implement this program for the claim savings it can provide.

Sincerely,

Jesse Stuedemann
