

FOR IMMEDIATE RELEASE

**COVID-19 Numbers Underrepresented as CDPHE Resolves Reporting Issue
682 Cases in Two Weeks, 228 Cases in the Last Week**

STEAMBOAT SPRINGS, CO, January 10, 2022 – [The COVID-19 Dashboard](#) was updated January 9 at 6:00 pm to share the COVID-19 metrics and vaccination rates. COVID-19 cases are at 682 cases in the past two reported weeks and 228 cases in the last week. Case data may be slightly underrepresented as CDPHE resolves a data reporting issue that affects public facing data dashboards from January 5-9. Due to Routt County Public Health's partnership with healthcare providers, we know of more than 70 locally tracked cases reported by our local providers that were not included in CDPHE dashboard numbers. This processing issue only affects case data, it did not impact testing, hospitalization or death data. However, because of how Routt County calculates positivity, both case counts and positivity are impacted on the dashboard. As of Sunday night the error was resolved; the backlogged cases will be included regular updates to [Routt County's COVID-19 Dashboard](#) as they are available.

Total case count in Routt County (through January 7, 2022): 4788

Total COVID-19 cases confirmed: 3569

Total Probable cases: 1219

Total tests administered: 81507
